Peace of mind, anywhere.

Watchguard 2020™ Wireless 3G SMS Alarm Pack with Accessories

The Watchguard 2020™ 3G Alarm Pack is the perfect alarm solution for small office homes and businesses. Featuring real time notifications via SMS or phone call and functionality via mobile and compatible with a wide range of wireless alarm accessories to fit the security needs of any size installs.

- Versatile security for residences, offices and stores
- Add & remove wireless accessories via smartphone app, including door/window contacts, smart plugs, sirens & motion/flood/gas/smoke detectors

- Control, configure and monitor your security system from your phone, all from one convenient app
- Connect up to 50 wireless sensors and 10 remotes
- Notifications via phone & email on alarm activation

Real-time Push Notifications

**Complete Wireless Accessory Range**

Voice Controlled Home Integration

Receive instant notifications and maintain full control of your system from anywhere with the free Android/iOS app.

Real-time alarm notifications
Receive instant push and/or email notifications whenever an alarm event is triggered.
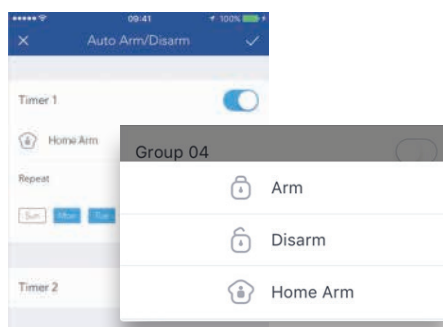

Complete alarm system control
Activate and deactivate the control system, edit sensor names & status, create alarm zones with schedules, and more.
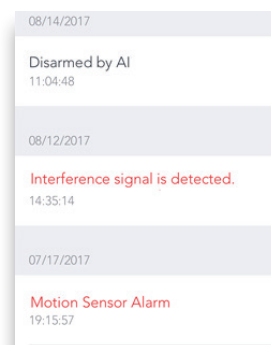

Share access with multiple users
Share access to the alarm system with up to 5 users, with two account access levels: Admin and User.

Set auto arm/disarm schedules
Set up to 6 automated timers to Arm, Disarm or Home Arm the system, which can be set to repeat during the week.
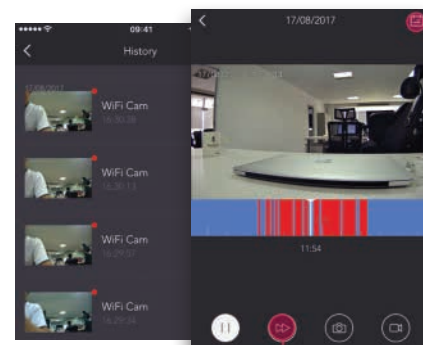

Check alarm system history
Time-stamped history records alarm activations, when the system is enabled & disabled, and events such as power loss.

With the optional 720p WiFi surveillance camera, you can rest easy while away from the house, with 24/7 continuous recording, motion detection alerts and a two-way microphone.

Motion detection notifications
Receive push notifications when motion is detected while system is armed, which can then be checked with live-view.

Record & Playback Footage
Rcord up to 32GB via microSD card, which can be played back at any time, with detected motion events marked in red.

The Watchguard 2020™ Wireless 3G Alarm Pack includes:

1 x Control Panel with Desk Stand and Wall Mount

1 x Wireless Pet Immune PIR Sensor

1 x Wireless Door/ Window Reed Switch
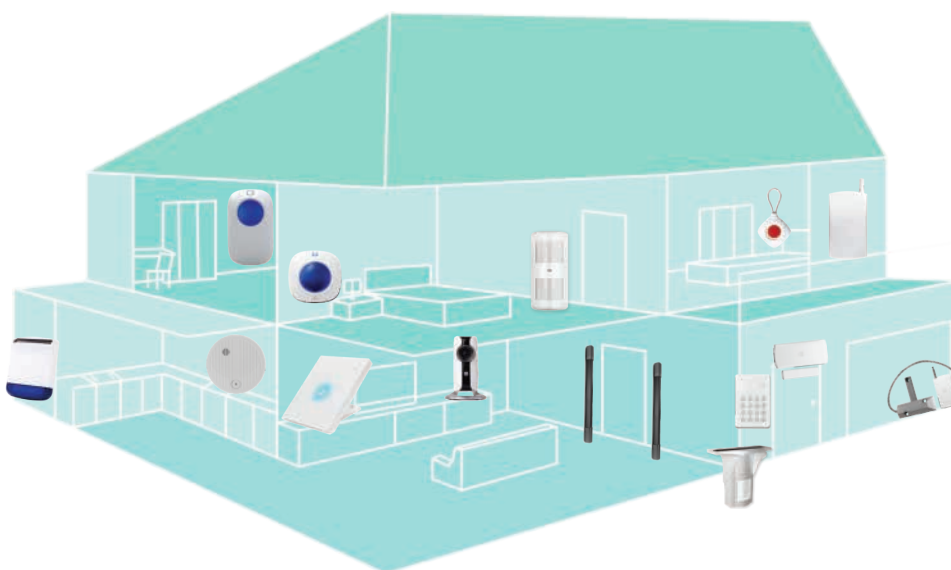

2 x Remote Controls

1 x RFID Tag (2 Pack)

Expand your security with the Watchguard 2020™ Wireless Accessories range.

The Watchguard 2020™ Alarm System can be customised to fit perfectly into any home, leaving no point of entry or potential fire/water hazards uncovered.

Explore everything that the Wireless Accessories range has to offer, including:

PIR Sensors

Detect any movement while the system is armed with a PIR sensor. Available in pet-immune, 360° and solar-powered outdoor models.

Door & Window Reed Switches

Cover any point of entry with a magnetic reed switch. Available in door/window and roll shutter door models.

Strobe Sirens

Emit a loud siren and flashing lights when activated. Available in compact and solar-powered outdoors models.

Detectors

Monitor against hazards with these specialised devices, including fire, glass break and flood detectors.

Access & Alarm Control

Besides the mobile app, the system can also be enabled and disabled via remote control, panic button and keypad.

Other Accessories

Expand wireless signal range, cover doors and hallways with IR beam sensors and add WiFi surveillance cameras.
