Product Overview

The Watchguard NVR4WPACK is a compact, 720p HD surveillance system ideal for homes and small businesses.

This CCTV package includes 4 x 1.0 megapixel, IK10 vandal resistant and IP66 weather resistant WiFi dome cameras, capable of recording 720p HD footage in 25fps real-time. The network video recorder has a built-in WiFi module (802.11b/g), providing a fast installation with versatile camera mounting options.

The NVR features H.264 compression and a pre-installed 1TB hard drive for weeks of continuous recording. Video quality and frame rate can also be adjusted to increase the recording time. The NVR features continuous recording, where old footage is overwritten after the HDD reaches capacity.

This NVR offers a comprehensive range of remote view options so you may monitor your premises on the go. You can connect to your Watchguard CCTV system via local and network PC, and through applications available for iOS and Android operating devices.

NVR Specifications	
System
