

# **Boost analogue with 720p**

16 Channel AnaloguePlus<sup>™</sup> Digital Video Recorder

### Model: CVR16E

- Supports analogue, HDCVI and IP video inputs
- Up to HDCVI 500m video transmission distance
- Records up to 960H (analogue) / 720p (HDCVI/IP)
- 1 x SATA port for up to 4TB of HDD capacity
- HDMI & VGA simultaneous video output
- Backup via external USB device or local network
- Configure remote view in seconds via QR code
- Remote view for iOS, Android & Windows Phone

## **---**Watchguard

You deserve to feel safe, secure & protected™

### 16 Channel AnaloguePlus<sup>™</sup> Digital Video Recorder

Model: CVR16E

#### **Product Overview**

The Watchguard<sup>™</sup> AnaloguePlus<sup>™</sup> range of DVRs are ideal for jobs where cost effectiveness is paramount, but image quality is a close second. The range aims to deliver affordable analogue surveillance, with the option to expand beyond D1 resolution to 720p HD where necessary.

With support for up to 16 channels of analogue or HDCVI video, you can provide your customers with the flexibility they need to receive quality performance whilst landing within their budget. For installs with existing surveillance, this DVR can also substitute analogue/HDCVI video inputs for up to two IP channels.

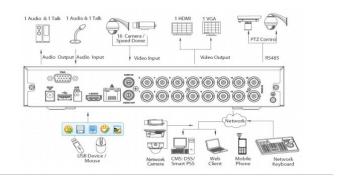

Achieve more than double the resolution of D1 when you take advantage of the 720p video input options via IP or HDCVI. This makes the Watchguard AnaloguePlus<sup>™</sup> range a more capable and equally affordable alternative to conventional analogue surveillance systems.

The CVR16E is a compact 16 channel digital video recorder capable of recording at a maximum resolution of 720p / 1.0MP (1280 x 720). It features a single internal SATA port for up to 4TB of HDD storage and has HDMI and VGA video outputs. You can back up footage via USB device or over the network.

This DVR also features comprehensive remote view capabilities (iOS, Android & Windows Phone), including quick configuration of remote view via QR code (excludes Windows Phone).
