

Outdoors 4G LTE Wireless Access Point

The LGAP100-4G allows you to set up networks anywhere with a 4G network connection. Create emergency backup networks, temporary outdoors WiFi and networks in remote areas without broadband.

- 4G LTE transfer to wired & WiFi network
 - Functions as a router & an access point
 - Dual 2 x 2.4GHz & 1 x 4GHz antennas
 - Power via micro-USB or PoE
 - Simple plug & play installation
- Includes:**
- 1 x 4G Access Point
 - 1 x PoE Adapter
 - 1 x Network Patch Cable
 - 1 x Instruction manual
 - 2 x Screws for wall mount

Specifications	LGAP100-4G
Hardware Specification	Chipset: Qualcomm QCA9531+EC25 Memory: 64MB; Flash: 16MB; PA Chip: 2.4G SKY85330-11*2
Antenna	2 x 5dBi 2.4GHz Antennas; 1 x 5dBi 4Ghz Antenna
Wireless Rate	2.4GHz: 300Mbps LTE Cat4: 150Mbps(DL MAX) 50Mbps(UL MAX)
Wireless Bands	LTE-FDD: B1/B2/B3/B4/B5/B7/B8/B28 LTE-TDD: B40 WCDMA: B1/B2/B5/B8 GSM: B2/B3/B5/B8
Physical Ports	1 x 10/100 LAN RJ45 1 x 10/100 WAN RJ45 (Support 24VDV POE power supply) 1 x Reset Button 1 x Micro USB Port (Support DC5V 2.5A Supply) 1 x Micro SIM Card holder
Indicator Lights	Power \ WAN \ LAN \ WiFi \ 4G \ Signal strength
Power	Power Supply: 24V PoE Power Supply(0-100m) / USB port power supply Power Adapter: 24V 0.5A PoE Power Adapter (24V only)
Power Consumption	<12W
Installation	Wall mount
Ingress Protection	IP31
Physical Features	323 x 205 x 31mm
