

Intelligent Sensor LED Batten Lighting

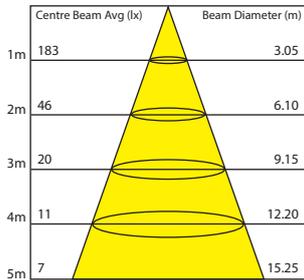

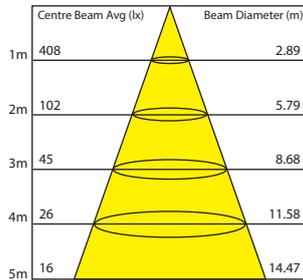

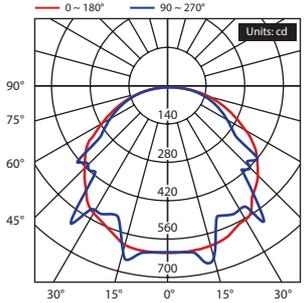

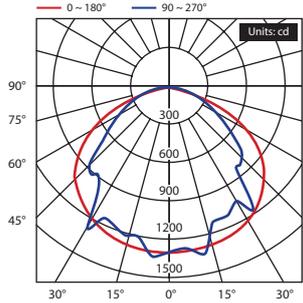

LEDBTS Series: 18W and 36W sensor battens in standard 600mm & 1200mm models

The ENSA™ LED batten light series comprises truly customisable energy efficient lighting solutions that deliver unparalleled control over your lighting, without the need for a complex management system.

Each LED batten uses a fully-configurable ambient light sensor, 5.8GHz microwave motion sensor and light on-timer in tandem, achieving impressively low total energy consumption when compared to traditional twin-batten fluorescent tubes. They are perfect for areas with intermittent people traffic such as in stairwells, corridors, underpasses, car parks and more.

- Tailor your light use to further compound energy savings
- Adjustable light & motion sensing with on-time control
- Sensor can detect motion through glass and thin walls
- Built tough housing: IP65 dust and weather resistant
- Control standby mode: completely off or half brightness
- Long lifespan LED lighting: rated for up to 50,000 hours

Series Specifications

Model	LEDBT18WS	LEDBT36WS																																				
Product Image																																						
Series Name	LEDBTS Series: Standard LED Smart Batten																																					
Optical																																						
Light Output	1350lm	3240lm																																				
Luminous Efficacy	75lm/W	90lm/W																																				
Colour Temperature	6000K																																					
Colour Rendering Index	> 70																																					
Beam Angle	140°																																					
Light Decay	< 15% at 20,000 hours																																					
Rated Lifespan	> 50,000 hours																																					
Electrical																																						
Power Consumption	18W	36W																																				
Input Voltage	220 ~ 240VAC (50Hz)																																					
Power Factor	> 0.9																																					
Dimmable	N/A																																					
Detection																																						
Ambient Light Sensor	3 ~ 2000lx (adjustable)																																					
Motion Detection	360° Microwave (5.8GHz) / 8m radius (adjustable)																																					
On-Time Delay	10s ~ 12min (adjustable)																																					
Standby Light Modes	Off (0% brightness)																																					
General																																						
Ingress Protection	IP65																																					
Plug / Socket / Base	Internal terminal block																																					
Reflector / Diffuser	Clear polycarbonate diffuser / Metal clips																																					
Operating Environment	-20° ~ 50°C																																					
Dimensions	600 x 86 x 65mm	1200 x 95 x 80mm
