

INDE SERIES

Make theft impossible with INDE

Large Motor Driven Siren & Fog Generator Bullet, available with fog refills

The INDE series is the ultimate invasion deterrence solution for residential, commercial and industrial applications. The INDE series' motor driven siren and rapid activation fog defence bullet are designed to stop theft in an instant, causing them to flee without harming the home/small business owner or their site.

Ultra Loud Deterrence

The ultimate deterrent, the INDE super siren will stop intruders and inform others of their presence.

Rapid Fog Defence

INDE rapid activation fog defence systems deploy in seconds, obscuring large areas, making theft impossible.

Early Warning Via Existing Camera

Detect trespassers on your site using existing AI CCTV cameras, so you know exactly when to activate the INDE system

SERIES SPECIFICATIONS

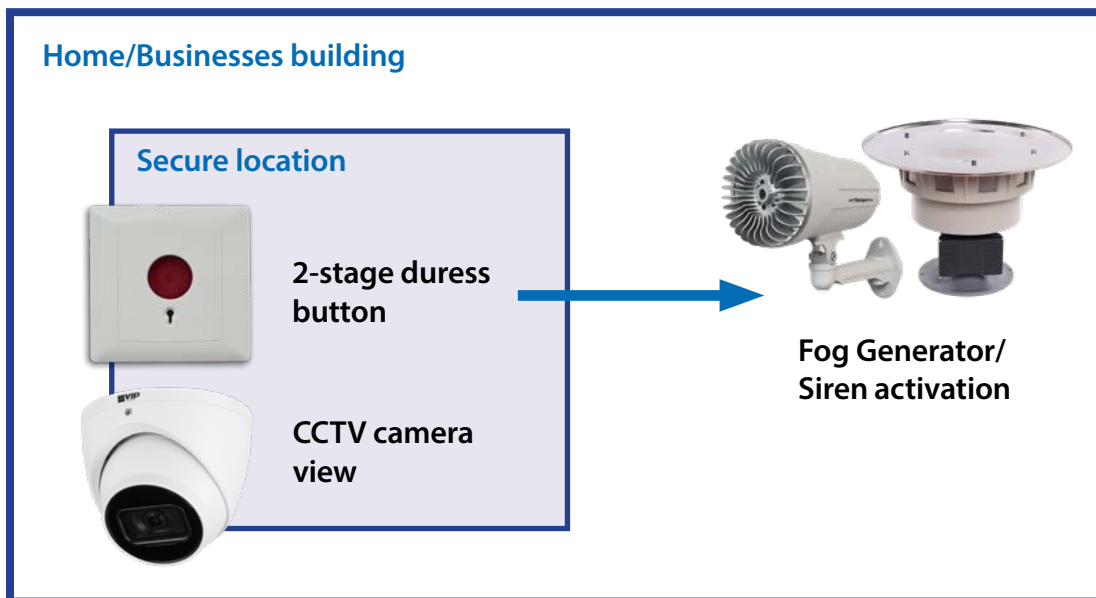

Ordering Information	Large Motor Driven Siren (ALM48VS)
Frequency	500/560Hz
Max Siren Volume	123 db (A) @ 1m
Siren Output Range	2-3km
Siren Tone	Continuous or Wail Tone (when supply is switched on/off)
Power Supply	48V DC
Power Consumption	2.2kW
Operating Environment	-20 to +40°C/90% at 20°C (RH)v
Housing	Aluminium
Dimensions	69 x 69 x 67cm (case)
Weight	45Kg

Ordering Information	Fog Generator Bullet (SFGBT3)
Coverage time	1 second (activation) , 8 seconds (dispense time), 30-45 minute (stay time)
Fog Range	100m ³ - 150m ³
Certification	CE, ISO:9001, ISO:14001, RoHS, NON-TOXIC test report
Operating Conditions	-10°C-50°C/-10%-80%
Power Consumption	0-24W
Power Supply	12V DC 3A
Refills	3x pack refills (sold separately, see SFRF3)
